Chief  
U.S. Border Patrol

THROUGH: (b)(6)(b)(7)(C)  
Deputy Chief  
U.S. Border Patrol

THROUGH: (b)(6)(b)(7)(C)  
Division Chief, SWB  
U.S. Border Patrol

FROM: (b)(6)(b)(7)(C)  
Chief Patrol Agent

(b)(6)(b)(7)(C)

SUBJECT: (b)(7)(E)

On September 15, 2010, Tucson Sector (TCA) implemented the (b)(7)(E) program as a means to educate aliens processed for Expedited Removal (ER). The intent of (b)(7)(E) is to realize the full deterrent potential of an ER by ensuring that the aliens that go through the process have a full understanding of the ramifications that accompany an ER, as well as the potential consequences they face if they choose to illegally enter the country after being formally removed.

Each alien processed for ER is shown a video that delivers a candid message intended to inform the alien and engender a psychological impact to deter future illegal entry attempts. After viewing the video, the alien is greeted by the Field Operations Supervisor (FOS) who is the deciding official in their case. Following a script, the FOS addresses each alien individually to ensure the alien has complete awareness of the significance of a formal removal.

TCA continues to work toward the elimination of Voluntary Return within our area of operation as a means to deter illegal entries and break the smuggling cycle. To this end, ER has been an extremely valuable tool. We believe (b)(7)(E) will enhance our existing efforts to deter aliens from illegally reentering the country.

(b)(7)(E)

- Alien is processed in accordance with established procedures.
- After the ER has been served and the “A” file has been reviewed, ER candidates will be brought together in a formal setting. Each station will identify an area that is conducive to the process, and will instill upon the alien the seriousness of the procedure.
- The TCA produced ER educational video will be shown to the aliens.
- Immediately after the video, the aliens will be addressed in person by the Field Operations Supervisor (FOS) who is the deciding official in their case. The FOS will speak to each alien individually, following the written script provided.
- The FOS will then call up each alien and place their right index fingerprint on the last page of the I-867B, next to the aliens signature.
